Also, the Church of England has released this which may be helpful to those who don't have access to the internet: -

"Daily Hope"

"Daily Hope" was launched a couple of days ago, especially if your community includes older people with no internet access.

The team behind "Daily Hope" write:

"It's a free national phone-line aimed particularly at the over 75's who don't have access to the internet. Research indicates that some three million people - particularly those in this age group - have no, or very irregular, access to the internet.

The line will be available 24 hours a day on 0800 804 8044.

Callers will hear a special greeting from the Archbishop of Canterbury before being able to choose from a range of options, including Prayer During the Day and Night Prayer updated daily, from Common Worship, and a recording of the Church of England's weekly national online service. A section called Hymn Line will also offer callers a small selection of hymns, updated daily. An option entitled 'Hymns We Love', provides a hymn and reflection and is based on an initiative by Connections, a group focused on this age group.

At present, there is clearly a challenge in informing those that are digitally disconnected of this phone line. As such, promotion of the phonenumber is in two strands: via the media and encouraging local churches to identify and inform those for whom this service would be valuable."

St Mary, Hale and St Mary, West Bank (both CofE)

Has a joint recorded service which goes out on St Mary Hale Facebook group:
